Medizin

"A surgeon should have well-formed hands, long slender fingers, a strong body, not be inclined to tremble, be well grounded in natural science and should know not only medicine but every part of philosophy..."

Guido Lanfranchi Chirurgia Magna 1296

"A surgeon should have well-formed hands, long slender fingers, a strong body, not be inclined to tremble, be well grounded in natural science and should know not only medicine but every part of philosophy and have digital competencies."

Sebastian Kuhn Universitätsmedizin Mainz

Wie haben sich Ärzte und Patienten im digitalen Zeitalter verändert?

Wie hat sich die medizinische Praxis verändert?

Wie sieht die Zukunft der Medizin und des Medizinstudium aus?
